PROFESSIONAL PROFILE

Backend Engineer with 2+ years building scalable systems in Python/Django, Node.js, and cloud environments. Delivered 50% backend overhead reduction, shipped 50+ document templates, and integrated 20+ vendor pipelines. Enrolled in M.Sc. CS at KIT (Karlsruhe); B.Sc. Software Engineering, NUST (GPA 3.61/4.00).

EDUCATION

- | | |
|---------------------|---|
| Oct 2025 – present | M.Sc. Computer Science
<i>Karlsruhe Institute of Technology (KIT), Karlsruhe, Germany</i> <ul style="list-style-type: none">Specializations: Embedded Systems, Telematics. |
| Nov 2021 – Jun 2025 | B.Sc. Software Engineering
<i>National University of Sciences and Technology (NUST), Islamabad, Pakistan</i> <ul style="list-style-type: none">Grade: 3.61/4.00 · EQF Level 6 · 133 ECTS · Thesis: <i>AI-powered E-Commerce Web App with Chatbot</i>Subjects: Software Engineering, Computer Networks, Network Security, Machine Learning, DSA, Embedded Systems |

WORK EXPERIENCE

- | | |
|---------------------|--|
| Jan 2026 – Mar 2026 | Backend Engineer · Warpshift
<i>Remote — Ontario, Canada · Legal Document Processing (SaaS)</i> <ul style="list-style-type: none">Designed and shipped a document template engine with 50+ new templates, accelerating client onboarding and on-demand legal document generation.Integrated 20+ vendor forms for 5 major Canadian lender banks into a fully automated processing pipeline.Built a vendor-form field-placement pipeline: scans PDF fields, injects editable fields, and stores the generated PDF.Resolved critical frontend bugs, improving product stability. |
| Feb 2025 – May 2025 | Backend Engineer · RapidStart
<i>Remote — Dubai, UAE · AI Agent Platform</i> <ul style="list-style-type: none">Architected VM allocation and vision-model orchestration layer for automatic cloud resource scaling.Integrated multiple MCP (Model Context Protocol) servers into the core AI agent framework.Engineered a payload reconstructor for post scheduling, reducing backend processing overhead by 50%. |
| Nov 2024 – Feb 2025 | Backend Developer · RapidStart
<i>Remote — Dubai, UAE · Social Media Automation</i> <ul style="list-style-type: none">Built full backend from scratch in Django: authentication, session management, API layer, and role-based token management.Integrated all Social Engine API endpoints.Implemented serverless post scheduling via AWS Lambda webhooks in 3 lines of Lambda code. |
| Sep 2024 – Oct 2024 | Backend Developer · Hural
<i>Remote — Bahrain · B2B SaaS</i> <ul style="list-style-type: none">Built a Vue-template Django web app with Stripe payment gateway.Delivered 3 major product features; improved UI performance.Implemented table-to-CSV conversion and one-click export. |

RESEARCH

- | | |
|---------------------|--|
| Jun 2022 – Sep 2022 | MDRP: Message Dissemination & Reroute Planning in Emergency EVs
<i>NUST, Islamabad, Pakistan · VANETs Research</i> <ul style="list-style-type: none">Studied Vehicular Ad-Hoc Networks (VANETs) and implemented multiple re-routing algorithms to minimise ambulance-to-patient response time under varying traffic densities.Proposed and evaluated a Road-Side Unit (RSU) architecture; simulations conducted in AnyLogic.Findings documented in a research paper with quantified results. [Paper / Results] |
|---------------------|--|

SELECTED PROJECTS

Aug 2025 – Jan 2026	DeProfane: Real-time Profanity Filter <i>profanity-filter-project.vercel.app</i> – Django/Celery backend with WebSockets, FFmpeg, RTMP, Whisper transcription, and YouTube Data API integration. – Supports live streaming (OBS-style), upload, mute/beep/rephrase modes.
Oct 2023 – Jan 2024	CheveCasa: Venezuelan Property Listing Platform <i>chevecasa.com</i> – Full Django backend: S3 image storage, RBAC, Leaflet/OpenStreetMap geolocation, and nearest-neighbour search API.
Jan 2026 – Apr 2026	Ferrum: Tiny Relational Database Engine <i>github.com/TaimoorIkram/ferrum</i> – From-scratch relational DB written in Rust: query parser, storage engine, joins, keys, and transactions. – Demonstrates low-level systems programming and memory-safe design.
Jan 2023 – Jun 2024	NEFT: University Cash Flow Management System <i>github.com/TaimoorIkram/neft</i> – Community-service project managing student transactions with compound chaining, multi-role dashboards, and automated cash-cycle updates.

TECHNICAL SKILLS

Languages	Python · JavaScript · TypeScript · Rust · C++ · Java · PHP · Assembly
Frameworks	Django · Express.js · Node.js · Next.js · Vue.js
Databases	PostgreSQL · MySQL · MongoDB · Redis
Cloud & DevOps	AWS Lambda · AWS S3 · Docker · Git · Render · Celery · WebSockets
Tools	Postman · VSCode · FFmpeg · Whisper · MCP Servers · AnyLogic

CERTIFICATIONS

Sep 2022 – Feb 2023	Meta Back-End Web Developer Professional Certificate <i>coursera.org/verify</i> – A 9-course specialization certificate spanning over 6 months. – Courses include Python, Django Web Framework, REST APIs, Databases, Back-End Capstone and more.
---------------------	---

VOLUNTEERING & EXTRACURRICULARS

Oct 2023 – Jun 2024	Chair of Creativity · NUST Hack Club, Islamabad Led Social Media, Graphics, and Photography/Video teams. Spearheaded society rebrand to NUST Hack Club (NHC), establishing a new identity and strategic vision.
Jan 2023 – Feb 2023	Delegate Speaker, German Delegation · NIMUN '23 <i>NUST International Model United Nations</i> Represented Germany in the UNEP committee on the UNFCCC and Geneva Convention.

INTERESTS

Photography & Cinematography (street, portrait, landscape) · Open-source development · Emerging technologies
